10.23- US Labor Department Employment Report - occupational earnings

for latest update see

https://www.bls.gov/oes/current/oes_nat.htm

		Number of Individuals employed in this Category	Relative Standard Error for employment (smaller number means data is more accurate)	Employment per 1,000 jobs (larger number means bigger field)	Median hourly wage	Mean AVERAGE Hourly wage	Mean AVERAGE Annual wage	Relative Standard Error (smaller number means data more accurate)	
1	35-2011	Cooks, Fast Food	768,130	2.20%	5.4520	\$11.63	\$12.25	\$25,490	0.60%
1	27-2031	Dancers	3,850	11.10%	0.0270	\$18.78	\$24.49	-4	5.40%
1	27-2042	Musicians and Singers	24,080	4.20%	0.1710	\$30.49	\$41.46	-4	3.90%
##									

(1) Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.

(2) Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly wage published, the annual wage has been directly calculated from the reported survey data.

(3) The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

(4) Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

(5) This wage is equal to or greater than \$100.00 per hour or \$208,000 per year.
