

VIDEO RECORDINGS for LIVE CLASS ENROLLEES:

You'll receive a link to the first-class video recording within **48 hours** after the first session ends. Download the file to your computer so you can refer to it anytime — it's a large MP4 file, so give it a few minutes to download.

Future class videos will be sent to students who attend the live class or complete the previous assignment.

ASSIGNMENTS

After each class, you'll be emailed the assignment. The assignments are also posted on the website, but as they are often updated at the last minute, it is best to wait until after the class to ensure you have the latest version.

Set aside about **two hours** to complete the Assignment if you want to retain the information you are learning. **When you're ready to send in your work:**

- **Start a NEW email** (don't reply to the assignment email thread).
- Include your **name and the assignment number** in the subject line.
Example: "Money & Life Cycles Assignment #1 from Melissa Clark."

Deadlines:

- **Live class participants:** Please send your assignment **at least 48 hours before the next class.**
- **AYOP (At Your Own Pace) students:** You have more flexibility, but we strongly recommend sending it in **within two weeks** of receiving the assignment, or you will not stay on track.

Once your work is received, we'll send comments and answer sheets to help you.

HANDOUTS

Every assignment will have handouts, which can be downloaded from www.money101education.com — click the tab on the menu bar marked **"Handouts."**

We regularly change/update the handouts, and sometimes that causes an issue. If a link to download the file isn't working or something looks off, let us know — we'll fix it for you!

HOMEWORK HELPERS

We have wonderful volunteers — students who've previously taken the segment and are happy to meet with you on Zoom to review assignments, explain concepts, and offer support.

Their help is completely free! Make use of their services, and it will be a more rewarding experience. (The instructor should give you the email contact information in the first segment.)

REMEMBER: To get value from the program – you must do the assignments.
